

「農」新聞発表

6月16日。10月からの探究活動の第1歩として、1年生は2ヶ月前から農業の本を持ち寄り、農業の現状や課題について班で意見を交わしてきた。

そして当日。4グループに分かれて発表を行った。1年生はこれが探究科としての初めての発表というだけでなく、お互い班を点数で評価するため、緊張感漂う雰囲気だった。先輩からも発表の仕方などのアドバイスをいただき、自分達の発表を振り返った。(記者: 1-5 川口史楓)

June 16. As the first step in their exploration activities starting in October, the first year students brought in books on agriculture two months ago and they exchanged opinions as a group about the current state of agriculture and the issues it faces.

On the day of the event, the presentation was divided into four groups. Not only was this the first time for the first year students to make a presentation for the inquiry course, but the atmosphere was tense as each group was to be graded on the basis of their scores. They received advice from their seniors on how to present their presentations and reflected on their own presentations.
